

The Royal
Melbourne Hospital

City Campus

To DISHA,

On behalf of myself and all the staff on the Bone Marrow Transplant Unit at the Royal Melbourne Hospital, we would like to formally thank you for your generous donation that has enabled us to purchase a much needed ECG machine for our department.

The purchase of the ECG machine means that our medical and nursing staff will have immediate access to this vital piece of equipment, assisting in the prompt diagnosis and treatment of cardiac abnormalities. This will have a direct and positive impact on the care of our patients, and greatly assist the overall flow and dynamics throughout the department of Haematology and Medical Oncology.

Yours Sincerely,

Jeff Szer

Professor and Director,
Department of Clinical Haematology & Bone Marrow
Transplantation Service,
The Royal Melbourne Hospital.
